1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Bockman on February 25, 2004.

The application has been amended as follows:

On Page 4 of the specification, after the second line of text and before the section heading "Detailed Description of the Invention", the following was inserted:

Brief Description of the Drawings

Figure 1 shows barrier durability properties in terms of oxygen transmission rate as a function of elongation percentage.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art Kurokawa et al (USPN 5,698,317) teaches a biaxially oriented laminate comprising a polypropylene base layer, a discharge-treated polyolefin mixed resin layer containing crystalline polypropylene and a petroleum or terpene resin additive in an amount of 5-30wt%, a vapor deposited metal layer formed on the discharge-treated polyolefin mixed resin layer, and a heat-seal layer formed on the surface of the base layer opposite the surface of the polyolefin mixed resin layer; wherein the petroleum and/or terpene resin additive is utilized to improve adhesion to the vapor deposited metal layer, and wherein the polyolefin mixed resin layer may further

comprise lubricants. Kurokawa et al do not teach or render obvious the polyolefin wax additives as instantly claimed to enhance adhesion between the resin layer and the metal layer such that the film has a metal adhesion of 2 or more.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 8:00AM-4:30PM.
